

This replaces the text on page 46, item #14 of the 2009 Fair Book

14. All goats must have proper ID according to the USDA guidelines for declaration forms and for fair check-in. Tattoos must be readable and ear tags must be in the ear. Microchips are only acceptable per USDA guidelines. Please refer to the USDA guidelines on page 25. Micro-chipped goats that were shown at the KCYF in the past, may use that form of ID. Any goats that are new to the fair in 2009 need to comply with current guidelines, and should avoid micro-chipping for ID purposes. TB certificates are not required for check-in unless you have purchased a goat from out of state or from the infected counties on the eastern side of the state.
